

REACH Regulation statement

5/8/25

REACH is a European Community Regulation on chemicals and their safe use. It involves the Registration, Evaluation, Authorization, and Restriction of Chemical substances.

As a distributor of fasteners, Bild Industries does not manufacture, distribute, or export any “chemical substances” or “preparations” in any quantity. The items we distribute are “articles” and do not involve the “intentional release of substances during normal and reasonably foreseeable conditions of the articles’ use.”

Manufacturers of the articles we distribute have acknowledged that the amount of Cadmium may exceed the .1% of weight requirement; however, cadmium plate remains a requirement of the applicable specifications for our product line and there is no substitute for cadmium plate to date.

Bild Industries will conduct ongoing review of REACH requirements to ensure knowledge of any changes that would affect our product line.

Bild Industries, Inc.
